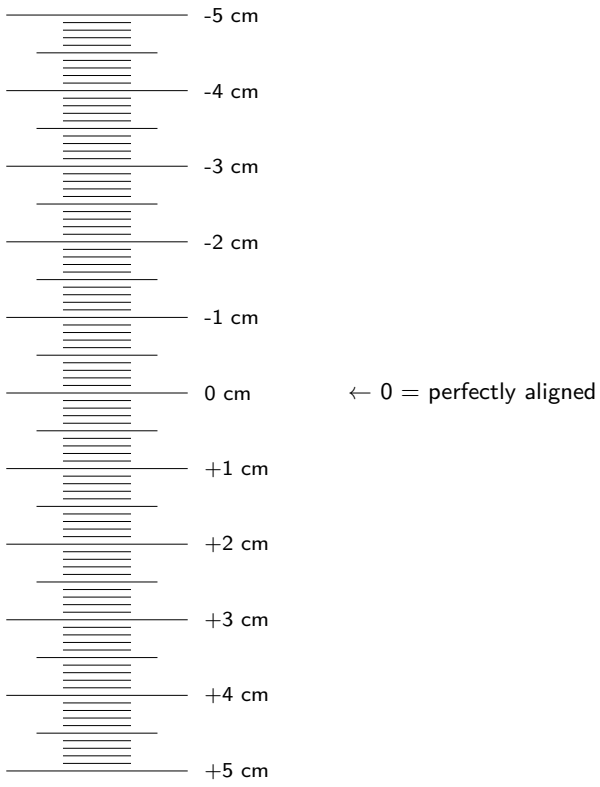
Notecard alignment test. Print BOTH pages exactly like the notecard:
100% / Actual size, duplex, flip on long edge. Then read the back side.

FRONT reference line



Hold this sheet up to a light, back side facing you.
Find where the bold FRONT line shows through on this ruler.

Read the number in cm. + means the front printed LOWER than the back.
Convert to inches (divide by 2.54) and put it in `\BACKSHIFT`
in notecard-3x5-print.qmd, e.g. +2.5 cm → 0.98.
